

Hi everyone,

This is a gentle reminder that homework # 2 is due tomorrow. Beginning tomorrow, my regular office hours will be conducted virtually via zoom meetings. My zoom address is <https://lsu.zoom.us/j/3381110939>. My office hours are Mondays, Wednesdays and Fridays 10:30 - 11:30 pm. I suggest that you email me the day before and let me know at what time you will be joining the meeting, if you wish to join my virtual office hours. It doesn't make sense to tie up network resources holding a zoom meeting when nobody is joining in. You can join the meetings via a zoom app on your cell phone or a computer that has a camera on it. Or if you don't have a mic or camera, you could still join the meeting but you won't be able to ask me live questions but could listen in on comments that I make on questions asked by others. You can also email me questions in advance and I will either address them during the meetings, or more likely, later on by email.

Lectures will also be given by zoom meetings during the regular class time on Tuesdays and Thursdays. If possible, I may also, if available, post a recording of the lecture to the zoom cloud and provide you the url for you to access the lecture in video format by the end of the day. I will provide summary notes, in PDF format, like we did before in-person classes were cancelled. The video lectures, if available and just as we did in class, will focus mainly on problem-solving since you can always read the related definitions from the lecture handouts.

Regards,

---
