

## Steps for Submitting CSC 2262 Lab Programs

- 1) Drag your MATLAB file(s) (e.g., Lab1a.m, Lab1b.m and newton.m) from the MATLAB folder to the Desktop.
- 2) Open WinSCP
- 3) In the Host name box type `classes.csc.lsu.edu`, then type in your User name and Password and click on `Login`.  
If the Warning window appears, click on `Yes`.
- 4) In the right panel of WinSCP, do the following:
  - a) Right click, go to `New`, and click on `Directory`.
  - b) In the New folder name box, type progN where N is the lab number.  
(NOTE: IN Lab 1, DO NOT REPLACE N WITH 1a or 1b, JUST REPLACE IT WITH 1, i.e., IN Lab 1, JUST TYPE prog1), then click on OK.
  - c) Open the progN folder by double clicking on it.
- 5) Drag your MATLAB file(s) (e.g., Lab1a.m, Lab1b.m and newton.m) from the Desktop to the right panel of WinSCP.
- 6) Click on the blue left arrow above the right panel.
- 7) Click on the Open terminal icon (the black rectangle with a white >).
- 8) In the Confirm window, click on `OK`.
- 9) In the Enter command box, type `~cs2262_bre/bin/p_copy N` and click on `Execute`. (NOTE: IN Lab 1, DO NOT REPLACE N WITH 1a or 1b, JUST REPLACE IT WITH 1, i.e., IN Lab 1, JUST TYPE ~cs2262\_bre/bin/p\_copy 1).
- 10) You should then see a message that all of your files were received.
- 11) If you don't see that all of your files were received, raise your hand and a TA will help you get them submitted correctly.
