<u>Steps for Downloading WinSCP on Your Home Computer</u>

1) Go to this web page: **https://winscp.net/eng/download.php**

2) Disregard the Advertisement windows and click the large green button that says: **Download WinSCP 5.17.2 (10.6 MB)**

3) A page will come up that says:
   Your download of WinSCP-5.17.2-Setup.exe will start shortly...
   At the bottom of the screen, in the box that says:
   What do you want to do with WinSCP-5.17.2-Setup.exe (10.6 MB)? ,
   click on Run

4) A window will come up that says: **Do you want to run this file?**
   <u>Click on Run. Then click on Run again.</u>

5) In the **Select install mode** window that comes up, click on
   Install for all users (recommended)

6) A window will come up that says:
   Do you want to allow this app to make changes to your device?
   Click on Yes

7) In the **License Agreement** window that comes up, click on **Accept >**

8) In the next window that comes up, click on **Next >**

9) In the next window that comes up, click on **Next >**

10) In the next window that comes up, click on **Install**

11) In the next window that comes up, click on **Finish**

12) After the install is finished, restart the computer when asked (or restart before using the program).

13) The WinSCP icon should now be on your Desktop.

14) **NOTE: <u>You must be connected to the LSU VPN to access the classes.csc.lsu.edu server using WinSCP.</u>**
    <u>Consult the VPN documentation to get connected.</u>
